

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-003

2 January 1980

MEMORANDUM FOR: Chief, Administration Staff

VIA: Deputy Director for Policy and Management
Director of Security

FROM:
Chief, Community Security Group

SUBJECT: Assistance for Travel Arrangements

1. The Foreign Intelligence Surveillance Act of 1978 makes the DCI jointly responsible with the Attorney General for approving security procedures binding on common carriers (e.g., telephone companies) tasked pursuant to the Act to provide assistance. Procedures for this purpose have been under development by attorneys in Justice and CIA, with regular inputs by of my staff (double-hatted as security officer of the court established by the Act). Agreement has been reached within the government on the content of these procedures. The next step is to meet with common carrier officials to get their agreement. A meeting for this purpose has been set for January 16 and 17 at the FBI field office in New York City. Someone with security experience keyed to the particular requirements of activities under the Act should be present.

2. I propose that attend the January meeting in New York to advise on the need for particular elements of

these proposed security procedures should they be called into question. With the approval of the Director of Security I request assistance of the C/A&TD in arranging the travel.
